# Samba Touch

## SAMBA TOUCH: TAKING VENDING TO THE NEXT LEVEL

L470U0

With Samba Touch, access to products and information is easy and immediate, using a simple, intuitive and interactive interface. The touch screen makes it possible to browse through the products on sale, and buy multiple items in a single transaction, through the 'basket' feature. Products are also grouped into categories to make browsing for your item easier. For each product, you can also select a screen which contains nutritional information. The operator can tailor deals to specific locations - as well as setting up discounts based on the quantity of products in the basket.

Samba Touch takes vending to the next level: it is a more flexible vending machine, able to interact quickly with the customer.

### TOUCH SCREEN INTERFACE

- 7" Touch Screen
- Menu is easily personalised and products can be browsed by category
- 'Basket' facility enables the introduction of multi-buy discounts.
- Easily accessible nutritional information

### ELECTRONICS

- N&W electronic platform with 16-bit electronics with 4 MB Flash memory
- Trays with ETL (electronic tray labels) enable the remote management of price changes and promotions
- Data collection in line with the EVA DTS standard, using GIGA software
- IRDA compatible

### ACCESSORIES

- Infrared detection system
- Softvend dispensing elevator
- Automatic delivery bin (optional)
